Anti-Poverty Strategy

“Overcoming poverty is not a gesture of charity, it is an act of justice.
Like Slavery and Apartheid, poverty is not natural.
It is man-made and it can be overcome and
eradicated by the actions of human beings.
Sometimes it falls on a generation to be great.
YOU can be that great generation.
Let your greatness blossom.”

Introduction

Poverty harms people's prospects and damages their long term future. It also places a burden on public resources and service. It is in all our interests to tackle poverty.

Caerphilly Council has a long track record of tackling poverty through a range of core services as well as the four Welsh Government funded programmes, Communities First, Flying Start, Families First and Supporting People. As a landlord we provide good quality homes and work hard to support our tenants and we are building upon this with our Welsh Housing Quality Standard improvement programme. We also work actively with our partners to tackle this priority as reflected in our single integrated plan, Caerphilly Delivers.

This Anti Poverty Strategy clearly states Caerphilly Council's commitment to tackling poverty. It confirms the priority that we give to this issue. It also brings together the broad body of activity that we have in place to mitigate the impacts of poverty, to support people out of poverty, and to prevent poverty.

We need a comprehensive approach to tackling poverty and we realise that we cannot address poverty on our own, but we wish to set out our commitment to playing our part:

Caerphilly Council is committed to ensuring its residents are able to live fulfilled lives and are not prevented from enjoying an acceptable standard of living due to economic, social or cultural disadvantage.

In their publication "A UK Without Poverty" the Joseph Rowntree Foundation (JRF) define poverty as: When a person's resources are not enough to meet their basic needs. This includes the need to be part of society, by being able to participate in common customs and activities - like buying a birthday present for your partner or sending your child on a school trip.

JRF go on to state that interventions that either increase the resources available to households or reduce the costs of meeting their needs will help to reduce poverty.

Recognising that the experience of poverty is dynamic, and differs at different stages of life, JRF propose that thought must be given to policies that have an impact now, those that are investments in the future and those that provide insurance against future events. This can be summed up as four Ps:

This can be summed up as four P's:

Prospects: Policies concerned with improving the life chances of individuals and their families, so people are able to escape poverty in a sustainable way.

Pockets: Policies concerned with boosting households' resources now – primarily by increasing their income – so they are better able to meet their needs.

Places: Where people live shapes their lives, affecting their job prospects and access to essential goods and services and affordable housing.

Prevention: Almost anyone can experience poverty during their lifetime, so policies that insure against sliding into poverty are important.
