

EQUALITY IMPACT ASSESSMENT FORM

October 2018

THE COUNCIL'S EQUALITIES STATEMENT

This Council recognises that people have different needs, requirements and goals and we will work actively against all forms of discrimination by promoting good relations and mutual respect within and between our communities, residents, elected members, job applicants and workforce.

We will also work to create equal access for everyone to our services, irrespective of ethnic origin, sex, age, marital status, sexual orientation, disability, gender reassignment, religious beliefs or non-belief, use of Welsh language, BSL or other languages, nationality, responsibility for any dependents or any other reason which cannot be shown to be justified.

The Council is required to have due regard to the need to:

- eliminate unlawful discrimination, harassment and victimisation and other conduct that is prohibited by the Equality Act 2010
- advance equality of opportunity between people who share a relevant protected characteristic and those who do not
- foster good relations between people who share a protected characteristic and those who do not.

The Act explains that having due regard for advancing equality involves:

- removing or minimising disadvantages experienced by people due to their protected characteristics
- taking steps to meet the needs of people from protected groups where these are different from the needs of other people
- encouraging people with protected characteristics to participate in public life or in other activities where their participation is disproportionately low.

The protected characteristics are:

- Age
- Disability
- Gender Re-assignment
- Marriage and Civil Partnership
- Pregnancy and Maternity
- Race
- Religion, Belief or Non-Belief
- Sex
- Sexual Orientation
- Welsh Language*

* The Welsh language is not identified as a protected characteristic under the Equality Act 2010, however in Wales we also have to treat Welsh and English on an equal basis as well as promoting and facilitating the use of the Welsh language.

Further advice on completing impact assessments can be found on the equalities pages of Corporate Policy Unit Portal.

SERVICE AREA	Destinations and Events

DATE FOR NEXT REVIEW OR REVISION	N/A- savings proposal

***Throughout this Equalities Impact Assessment Form, ‘proposal’ is used to refer to what is being assessed, and therefore includes policies, strategies, functions, procedures, practices, initiatives, projects and savings proposals.**

The aim of an Equality Impact Assessment (EIA) is to ensure that Equalities and Welsh Language issues have been proactively considered throughout the decision making processes governing work undertaken by every service area in the Council as well as work done at a corporate level.

The Council’s work across Equalities, Welsh Language and Human Rights is covered in more detail through the [Equalities and Welsh Language Objectives and Action Plan 2016-2020](#).

When carrying out an EIA you should consider both the positive and negative consequences of your proposals. If a project is designed for a specific group e.g. disabled people, you also need to think about what potential effects it could have on other areas e.g. young people with a disability, BME people with a disability.

There are a number of supporting guidance documents available on the [Corporate Policy Unit Portal](#) and the Council’s Equalities and Welsh Language team can provide advice as the EIA is being developed. Please note that the team does not write EIAs on behalf of service areas, the support offered is in the form of advice, suggestions and in effect, quality control.

Contact equalities@caerphilly.gov.uk for assistance.

IMPACT ON THE PUBLIC AND STAFF

3 Does the proposal ensure that everyone has an equal access to all the services available or proposed, or benefits equally from the proposed changes, or does not lose out in greater or more severe ways due to the proposals?

(What has been done to examine whether or not these groups have equal access to the service, or whether they need to receive the service in a different way from other people?)

An analysis of social media (Facebook) data shows that visitors expressing an intention to attend the events listed above are predominately female ranging from 76% for the Caerphilly Lantern Parade to 92% for the Risca Christmas Market.

The same data shows us that the age range for attending the various events is predominately of the age range 25 – 44.

The events offer family type attractions and are expected to attract a family audience.

The proposed reduction in the number of events from the current provision will retain at least one event per year in each of the principal town centres that an event is hosted.

4 **Is your proposal going to affect any people or groups of people with protected characteristics?**
(Has the service delivery been examined to assess if there is any indirect effect on any groups? Could the consequences of the policy or savings proposal differ dependent upon people's protected characteristics?)

Protected Characteristic	Positive, Negative, Neutral	Relevance of the Policy or Practice
Age	Negative	The age range of the events programme is identified through social media is of a younger profile than the population profile of Caerphilly County Borough but is typical of facebook age user profile.
Disability	Neutral	The events take place in town centres that are unchanged through their accessibility by the deliver yof events.
Gender Reassignment		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.
Marriage & Civil Partnership		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.
Pregnancy and Maternity		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.
Race		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.
Religion & Belief		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.
Sex	Negative	The incidence of social media indicates a significantly high percentage of female interest in attending the events programme.
Sexual Orientation		The consequences of reducing the number of opening days on the groups described above is unknown as no monitoring data is available.

5 **In line with the requirements of the Welsh Language Standards. (No.1) Regulations 2015, please note below what effects, if any (whether positive or adverse), the proposal would have on opportunities for persons to use the Welsh language, and treating the Welsh language no less favourably than the English language.**
(The specific Policy Making Standards requirements are Standard numbers 88, 89, 90, 91, 92 and 93. The full detail of each Standard is available on the Corporate Policy Unit Portal. Although it is important that what is outlined in the proposal is available in Welsh and English, please consider wider impacts on Welsh speakers.)

The opportunities for the public to engage with an event at a town centre is reduced in terms of the number of event opportunity but there are no specific Welsh Language events affected by this proposal.

INFORMATION COLLECTION

6 Please outline any evidence and / or research you have collected which supports the proposal? This can include an analysis of service users.

(Is this service effectively engaging with all its potential users or is there higher or lower participation of uptake by one or more protected characteristic groups? If so, what has been done to address any difference in take up of the service? Does any savings proposal include an analysis of those affected?)

The visitors attending the events programme are outlined below:

13	<p>An equality impact assessment may have four possible outcomes, though more than one may apply to a single proposal. Please indicate the relevant outcome(s) of the impact assessment below.</p> <p style="text-align: right;">Please tick as appropriate:</p> <p>No major change – the impact assessment demonstrated that the proposal was robust; there was no potential for discrimination or adverse impact. All opportunities to promote equality have been taken. <input style="float: right;" type="checkbox"/></p> <p>Adjust the proposal – the impact assessment identified potential problems or missed opportunities. The proposal was adjusted to remove barriers or better promote equality. <input style="float: right;" type="checkbox"/></p> <p>Continue the proposal – the impact assessment identified the potential problems or missed opportunities to promote equality.
