

## **Annex 6g: Response Bedwas, Trethomas and Machen Community Council**

Dear sir / madam

On behalf of BTM Community Council I wish to object to the following proposals.

1. The Closure of Tre Hir waste site, can this not be moved to the Llanbrabach side of the Bailey Bridge? The increase in carbon foot print and increase in fly tipping is a major worry to us.
2. Decommissioning of the Graig y Rhacca CCTV Camera. We work closely with the Police in BTM and are very aware of the number of crimes solved in that area with help from that camera installation. The decommissioning of this unit is not good for the community of Griag y Rhacca and will hinder BTM Police.
3. The removal of the Schools Crossing at Navigation Street, Trethomas. Our children need this to get to and from school safely, we vehemently object to this proposal on grounds of safety and welfare of our children.
4. Increase in the charges for bulk items of waste to £25. Fly tipping has increased tenfold on our mountain tops and green lanes, this proposal may increase this. Can you not work with charities like Keep Wales Tidy and look to scrapping these charges all together.
5. The introduction of charges for rat and bedbug/ cockroach infestation.

I hope these objections will be noted.

Sincerely

Chris

Cllr Chris B Morgan  
Chair  
BTM Community Council
