Complete survey for a chance to **WIN** HIGH STREET VOUCHERS

Residents are being encouraged to help shape the future of council services by getting involved in the **“Caerphilly Conversation”**

The survey within this special edition of Newsline provides people living and working in Caerphilly county borough with the opportunity to share their experiences of life across the area; their views on public services, and suggestions for where things could be improved as we look to the future.

Communities and public services right across the UK are facing significant challenges, in light of the COVID pandemic, Brexit, climate change and the subsequent economic issues that these challenges inevitably present.

Despite these challenges however, there are also real opportunities. As we recover from the impact of COVID and address these other challenges, as a county borough we have a unique opportunity to reshape the future that we, as a community, want for our area. You - our residents have a key role to play in this.

Council Leader, Cllr Philippa Marsden said “It has been truly inspiring to see so many communities come together during the COVID pandemic, offering support and help to each other and to those in need. This is real ‘Team Caerphilly’ spirit in action; we all came together - public services, voluntary organisations, community groups and residents alike – with a common purpose. This continued partnership approach will be really important as we look forward.

“Your experiences and ideas for your communities, as well as for Caerphilly county borough as a whole, are crucial in helping us plan for the future, and to shape our place and public services to reflect the social, economic and environmental needs of our residents.”

The council is also required, by law to set a balanced budget and council tax level each year, so your views really do matter. We want to hear from as many people as possible. Please encourage your friends, family and neighbours to get involved in the ‘Caerphilly Conversation’ by completing this survey.

Shaping our Place – responding to the COVID pandemic

The COVID-19 pandemic has undoubtedly impacted upon us all. Last summer, Caerphilly County Borough Council published its **‘Team Caerphilly – Better Together’** strategy, which provided a framework for change in the way the Council will provide services to meet the needs of our communities in the future. COVID-19 has provided an additional and immediate challenge, which has prompted the council to accelerate the speed of change previously set out in this strategy. Caerphilly county borough communities have a key role to play in supporting the council and others in shaping both our place and the services they provide, to reflect the needs of our communities.

Our communities and you as individuals during the pandemic

The COVID-19 pandemic has seen a true partnership approach emerge – between our communities and public bodies including the council – with everyone working together to do their bit to contribute to the wellbeing of our communities. We have a unique opportunity to strengthen this partnership further going forward and building a positive legacy.

The council's response to the COVID-19 pandemic

Since March 2020, due to the ongoing COVID-19 pandemic, CCBC has had to focus its resources on providing essential services and protecting vulnerable residents: ■ Some additional services were introduced ■ Some services were temporarily withdrawn ■ Most services continued to be delivered but in a different way

4 How do you think Caerphilly County Borough Council has responded to the COVID-19 pandemic?

29

What could we do to further improve the way residents are able to access services remotely (either over the phone or online)?

30

Which council services, if any, do you feel you need to be able to access face to face?
Please tell us why ...

Council budget and council tax setting:

In light of the current circumstances surrounding the COVID-19 pandemic, councils across the country are unlikely to receive a detailed indication of their financial settlement for the forthcoming year until mid/late December. Councils have a legal obligation each year however to set a balanced budget, with determined council tax levels.

Council tax raises around £72.8 million a year. This represents 20.4% of our total budget. In 2019/2020 council tax increased in Caerphilly county borough by 4.7%.

31

Please select one of the following options to tell us your preference about council tax for the forthcoming financial year. Please select one only.

I appreciate the council has additional financial pressures, particularly associated with COVID-19, and would support a further increase in council tax of around 4.7%	
I'd support a lower increase but accept that this would only help protect the most important services	
I support a further increase in council tax of around 4.7% but would be prepared to pay an even greater amount to protect services	
I do not support any increase in council tax and understand that this would mean a reduction in the level of services provided (because costs and demand are rising)	

32

If you said that you would not be happy to support an increase in council tax, please provide details of how else you feel we can meet the financial challenges the council, like others, currently faces.

Place Shaping ambitions becoming a reality

The Council is transforming services as part of its 'Team Caerphilly – Better Together' Strategy, looking at how we can do things differently; prioritise our services, explore opportunities for greater customer focus, digital delivery, partnership working and a taking a more commercial approach.

COVID-19 has accelerated the speed and shape of change in the way we deliver our services and we have to adapt quickly. The council has already made significant progress in its journey of transformation, with a number of further priority development areas within its emerging place shaping ambitions.

Housing:

The council is currently nearing completion on its £261m physical improvement programme to its housing stock through the delivery of the Welsh Housing Quality Standard (WHQS).

Going forward, the council will continue to invest in its existing housing stock to provide quality, energy efficient, affordable homes, as well as a partnership new build programme.

33

What does good quality housing in Caerphilly county borough look like to you?
What is important for us to consider?

Jobs and the Economy:

The council is a key partner in the Cardiff Capital Region, which is made up of ten local authorities. The UK Government and Welsh Government have committed £1.1bn to the City Deal – which is supported by an additional £120m committed by the 10 local authority partners.

The City Deal’s longer term aims are to help boost economic growth, by improving transport links, increasing skills, helping people into work and giving businesses the support they need to grow.

34

What does a strong and prosperous economy look like to you? As a resident of Caerphilly county borough, what is important to you when it comes to the local economy?

35

What ideas do you have for attracting new business and visitors to our town centres and high streets, particularly in light of changing shopping habits?

Education fit for 21st Century – ‘Shared Ambitions’:

The council’s ‘Shared Ambitions’ strategy aims to raise standards and ensure that learners are healthy, confident, proud and ambitious and can benefit from high quality educational opportunities, settings and experiences.

We also have the 21st Century Schools investment programme, which is helping transform schools and other settings into first class educational facilities.

36

When it comes to education in Caerphilly county borough, what is most important to you?
Please give reasons for your answer.

The Environment/Climate Change:

The council has declared a climate change emergency and is committed to the ambitious target of becoming carbon neutral by 2030.

37

How concerned are you about climate change?

Very concerned

Fairly concerned

Not very concerned

Not concerned at all

Don’t know

38

What could you do to help the council and other partners to reduce the impact of climate change over the coming years?

39

Do you have any ideas for how we could provide services differently in the future and how we could work with you and your community to do this?

40

If your experience of receiving services during the COVID-19 pandemic OR your views on the Council's priorities for future services have been influenced (positively or negatively) because of any of the following; ethnic origin, gender, age, marital status, sexual orientation, disability, religious beliefs or non beliefs, use of Welsh language, BSL or other languages, nationality or responsibility for any dependents. **Please give details below:**

A bit about you...
