Proposal

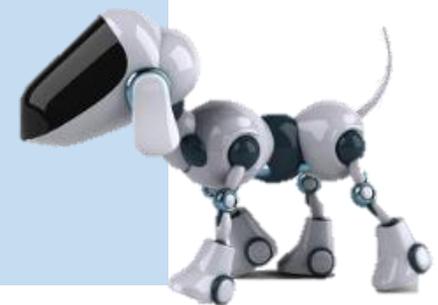

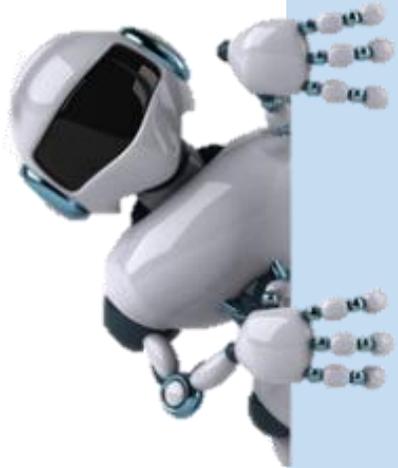

- What was the project being proposed?

We are proposing to:

Expand the existing Trinity Fields School and Resource Centre, via a new building extension and outdoor play space with an anticipated completion date of September 2023.

- The proposed new building will provide additional facilities to accommodate growing demand for places and provide additional classrooms, specialist intervention areas and outdoor play space
- It is proposed the additional facility will also house a new flexible hall, hydrotherapy pool and soft play facilities to increase provision on site which will also be considered for community use at suitable times in keeping with the curriculum timetable.

To ensure that it can cater for the changing and more complex needs of pupils with Additional Learning Needs (ALN) across the Council, both now and in the future and ensure compliance with the new Additional Learning Needs and Education Tribunal (Wales) Act.

Proposal

- Why this school?

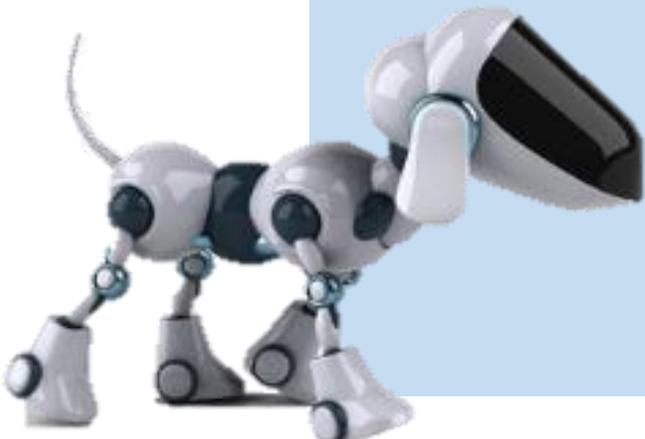

✓ Proposals have been prioritised based on:

- Building condition
- Pupil projections
- Local and national drivers,

The delivery of the curriculum and the Educational agenda remains at the core.

- ✓ Trinity Fields is a Special school that cater for those pupils who have the most complex need.
- ✓ All pupils across the Borough are entitled to receive high quality provision that meets their needs, no matter where they live.

We have identified a need to invest in improving our school building at Trinity Fields School, in meeting the demand for specialist education and building upon the excellent practice as identified by Estyn.

Proposal

- What options were considered?

- ✓ The Council has to consider a number of options for every proposal
- ✓ Each option is scored against a 'shopping' list of criteria to find the one with the best Strategic, Educational, Accessibility, Financial and Environmental Fit

Option	Description
Option 1	Do Nothing
Option 2	Further reconfiguration of the existing school
Option 3	Build a new primary school provision on another site
Option 4	Build a new extension onto the existing school to accommodate an additional 80 places
Option 5	Build a new school on another site to accommodate all identified provision and full cohort of 260 pupils (existing plus additional)

- ✓ **Option 4** being was the preferred option
- ✓ This would provide 263 places in total on the existing school site

Proposal

- Why Consult?
- Benefits and Disbenefits

- ✓ There are common challenges faced by all Local Authorities when adopting new proposals.
- ✓ Evidence shows that the best way to ensure successful delivery is by setting up projects correctly in the first place.
- ✓ As part of the development of the proposal, a number of benefits and disbenefits were identified as outlined in the Consultation Document.
- ✓ An Equality and Welsh Language Impact Assessment and a Community Impact Assessment were carried
- ✓ The consultation process was an opportunity to consult with relevant stakeholders to understand what they see as positive outcomes and what negative consequences may be delivered.

The Consultation Process

- How did we carry out the consultation?

- ✓ The Council has to follow a piece of legislation produced by the Welsh Government called the **School Organisation Code 2018** when they want to make any changes to a school.
- ✓ This proposal falls under the heading called making a *'Regulated Alteration to a Special school'*
- ✓ A formal consultation process was followed and a Consultation Document was published in both hardcopy and electronic version

The Consultation period started on **Monday 14th September 2020** and closed midnight on **Monday 26th October 2020**

- ✓ The full process was explained in the full Consultation Document
