Staff and Visitor Car Park

Species rich grassland

New specimen trees

New ramp for access with landings and seating. Marginal areas to be seeded with wildflowers and managed to encourage a species rich sward - New specimen trees - Oak and Beech

Existing Cypress trees retained

Selective management of existing shrubs and interplanted where required with flowering shrubs

Wildflowers

New decorative shrub and tree planting

The swale ditch areas will be seeded with a proprietary wetland grass mix and its margins will be planted with native damp/wetland species of perennials and small shrubs. These will include Dogwood, Guelder Rose, Meadowsweet, Flag Iris, Marsh Marigold, Purple and Yellow Loosestrife and Ferns

WW2 relic

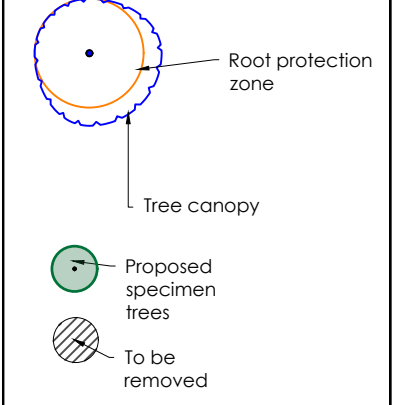

Existing trees
Management and clearance - selective coppicing, pruning and removal of dead branches

Boundary with Penllwyn Lane
New native hedge to rear of railings. Area between hedge and car park managed as wildflower grassland

Wildflowers create a bio-diverse habitat supporting birds, mammals, bees, butterflies and other invertebrate species.
