

Annex 5t: Website responses

Closure of recycling facility at Gelligaer

I think you are making a great mistake by closing this facility. It is used by the people in this area, if it closes it will cause a increase in fly tipping and we all are aware that there is too much of this going on in this area at present. You need to re think this.

Resident, Gelligaer

Re the closure of Penallta and Aberbargoed recycling sites

In view of the increase in fly tipping (much of it in local beauty spots, and in areas where it can be dangerous to farm animals and ponies) would you please explain to me why the Council see fit to close these local amenities. Is the Council not able to see what an utterly stupid decision this is. Fly tipping is going to increase, blighting our landscape. Or perhaps the Council has plans afoot to deal with this problem? It certainly doesn't seem to be doing anything about it at the moment. I look forward to your reply.
