

# LEAD

LOCAL ENVIRONMENTAL AWARENESS ON DOGS

Let's work together  
to be responsible  
dog owners.

## TAKING A LEAD ON DOGS

**Local Environmental Awareness on Dogs – LEAD®** – is an initiative founded in the London Borough of Sutton in South West London to encourage responsible dog ownership of all breeds of dog. In Caerphilly County Borough we have adopted this initiative. The Safer Caerphilly Community Safety Partnership will be utilising a unified partnership response when inputting this initiative into our communities. Ensuring, that it suits our communities and their local needs.

LEAD seeks to provide advice to the public on dog issues, improve dog safety and dog welfare. It also deals with anti-social and inconsiderate behaviour by individuals with dogs in a way that protects and reassures the public. It is aimed at all dog owners in the Caerphilly County Borough area, whether in private or rented accommodation. This work is being promoted through engagement with dog owners during regular patrols and through day-to-day contact with owners of dogs that come to agency attention.

The initiative is supported by all Community Safety Partners including but not limited to, Police, Local Authority, Community Landlords, Health Board, Fire Service and Third Sector. All are working closely together to support and promote the work of LEAD.

A local survey was completed which highlighted nuisance dogs and dogs off their leads, as areas of concern amongst residents in Caerphilly County Borough – and LEAD is aimed at tackling these concerns.

## WORKING WITH DOG OWNERS

We are:

- recording all incidents involving negative dog behaviour including dog attacks on people and animals; dog welfare and dog fouling. This is important to create a documented history should enforcement be necessary.
- encouraging owners (if a social housing resident) to register their dog with their landlord.

## WHEN IT'S TIME FOR POLICE INTERVENTION

As well as encouraging responsible dog ownership and giving advice, there are times when it is necessary for police to intervene, initiate control measures and ultimately prosecute offenders.

We will intervene when:

- dogs are used by owners to commit crime.
- dogs are linked with anti-social behaviour.
- prohibited types / breeds come to notice.

## CONTROL MEASURES, SANCTIONS AND LEGISLATION

We will act to enforce the law and protect the public whenever necessary and where legislation permits. Measures include:

### First warning letter

This will include key details of the incident – details that will be shared with relevant partners. Letters will be sent with supporting literature.

### Final warning letter

Should the dog's behaviour come to notice again, a second letter will be hand delivered by the local Neighbourhood Policing Team. At this stage the dog owner will also be given the opportunity to accept the offer of an educational course to improve their understanding of responsible dog ownership. If the dog owner is a contract holder with a community landlord in Caerphilly County Borough, the information surrounding the anti-social behaviour will be shared with all relevant partners. This could result in action being taken against them. Continued anti social behaviour, could result in permission to have a dog being withdrawn or even the property being repossessed.

### Acceptable Behaviour Contract

If further reports are received, within 6 months of the final

warning letter the dog owner will automatically be referred to the Strike 3 Intervention Group, this group is represented by all key partner agencies who deal with ongoing anti-social behaviour cases. The core group includes but is not exclusive to: Police, Community Landlords, Community Safety, Education, Youth Offending Service, Youth Service and Social Services. Within this meeting your case and the incidents relating to your conduct will be discussed. If it is deemed by the Strike 3 Intervention Groups Chair that your conduct does constitute ongoing anti-social behaviour you will be offered an Acceptable Behaviour Contract.

Acceptable Behaviour Contract's are a voluntary agreement between The Safer Caerphilly Community Safety Partnership and the individual. If this is declined, the Neighbourhood Police Team will monitor the dog's behaviour for 6 months.

### Enforcement

Following further reports within 6 months the dog owner will be referred to the 'Strike 4 Group'. The group is attended by all who attend the Strike 3 intervention Group meeting as well as Legal Services.

Within this meeting your case will be reviewed and if deemed appropriate your case will be referred for enforcement action. Such action could include Contingent Destruction Order on

conviction under the Dangerous Dogs Act or Control Order, Dogs Act 1871 or a variety of Enforcement measures that are included in the Anti-Social Behaviour Crime and Policing Act 2014:

- Community Protection Warning / Notice (CPW/N)
- Anti-Social Behaviour Injunction (ASBI)
- Criminal Behaviour Order (CBO)
- Closure order

*\*Please note that the above measures can be sought at any time during the process\**

### **PSPO's | Public Space Protection Orders**

Caerphilly County Borough Council aims to promote responsible dog ownership and reduce complaints for dog issues such as dog fouling.

The Council has approved a Public Spaces Protection Order in respect of six offences, these are:

- Excluding dogs from all enclosed children's play and multi-use games areas.
- Requiring dogs to be kept on leads in enclosed memorial gardens.
- Requiring dog owners to remove dog faeces in public places.
- Requiring dog owners to carry an appropriate receptacle for dealing with the waste that their dogs produce (that is to always have the means to pick up their dog faeces).
- Requiring dog owners to put their dogs on a lead

when directed to do so by an authorised officer on any public land where the dog is considered to be out of control or causing harm or distress to prevent a nuisance.

- Excluding dogs from marked playing pitches/areas.

For more information relating to Caerphilly County Borough Councils PSPO's please visit CCBC's website.

## WHY WAS LEAD STARTED?

LEAD was started after a woman was attacked and killed by a dog in Sutton in December 2010. Police in Sutton set about working with key partner organisations to launch the LEAD initiative as a structured and coordinated approach to encourage responsible dog ownership.

The Safer Caerphilly Community Safety Partnership has recognised that this initiative is needed in our area and for LEAD to work effectively in Caerphilly County Borough we needed to adjust the initiative to incorporate how we work in Wales and include a Community Safety Partnership focus. It is important to us that we can incorporate a commitment from all agencies to make sure it's a priority for us all.

## LEAD ACCOMPLISHMENTS

**LEAD** has been recognised nationally as being best practice for promoting responsible ownership of all breeds of dog whilst tackling anti-social and inconsiderate behaviour by individuals with dogs in a way that protects and reassures the public.

**LEAD** has been endorsed by the Kennel Club and supported by major charities including the RSPCA and Battersea Dogs Home. **LEAD** was used as a case study by the Department for Environment, Food and Rural Affairs (DEFRA)

for their new “Dealing with Irresponsible Dog Ownership” Practitioners Manual which accompanies the Anti-Social Behaviour Crime and Police Act (October 2014).

## WHO TO CONTACT

- Call your local authority for noisy dogs, dog fouling, illegal breeding or stray dogs.
- Call Gwent Police on 101, or message us on Facebook or Twitter, for illegal breeds, organised dog fights, dangerous dogs or anti-social behaviour with dogs.
- In an emergency, always dial 999.
- Call your landlord for nuisance dogs or anti-social behaviour with dogs in your tenanted or leasehold accommodation. (This includes all community landlords and contact holders)
- Call the RSPCA on 0300 1234 999 for concerns for the health and welfare of dogs.

## HELP US MAKE GWENT SAFER

By working together and sharing information, knowledge and experiences we want to make our communities safer for everyone to enjoy.
