Dear Sir / Madam,

Welsh Government funding has been secured to enable the authority to improve crossing facilities and access to Ysgol Gyfun Cwm Rhymney and Pengam, Ysgol Gymraeg Trelyn & Fleur-de-Lis Primary Schools. The proposal will also improve opportunities to walk to local shops, services and facilities for the community.

The Council consulted residents in the County Borough regarding their views and proposals to improve walking and cycling infrastructure for everyday journeys. This consultation informed the creation of an Active Travel Integrated Network Map of routes to be developed to make them more suitable for walking, cycling and scooter utility journeys. More information can be found at www.caerphilly.gov.uk/Services/Transport-and-parking/Active-Travel.

The improvement on which we seek your views is identified as INMC47 in the approved Active Travel Integrated Network Map. The proposed scheme aims to provide crossing facilities to improve safety and connectivity to enable more people to walk for everyday journeys. The Council invites you to review the enclosed proposals and complete the questionnaire returning the information in the prepaid envelope provided. The questionnaire is also available to complete on line at <https://www.snapsurveys.com/wh/s.asp?k=156777312005>.

The proposed works are funded by Welsh Government and enable us to provide the following improvements:

- Crossing facilities in the existing signalised junction (A4049/B4254).
- A signalised crossing facility connecting to enhanced paths which includes improvements/modifications to an existing barrier.
- Tactile paving and modifications to paths and hand rails to improve access.

- An improved gateway at the start of the 30mph Speed Limit and additional warning signs and carriageway markings.

Your comments, views and suggestions are important to us and will help the Council develop the final scheme details, all observations relating to the proposal will be taken into consideration. Please complete and return the questionnaire as soon as possible and by the 21st November 2019. If no completed questionnaire is received from your address by the 25th November 2019 the Council will assume that you do not wish to make any observations. If you have completed and returned the questionnaire and provided your contact details you will not receive an individual response but you will be notified of the outcome of the consultation.

I trust the above information is of assistance.

Yours faithfully

Liz Gibby, Senior Assistant Engineer

For and on behalf of
the Head of Infrastructure

How we will use your information

We will use the data you have provided in our analysis and to inform our policy/scheme development and where appropriate to inform our decisions and changes. Your comments will not automatically receive individual replies but will be taken into account when reviewing and evaluating the support for the policy/scheme. We will inform those who have participated/responded of the outcome of our consultation if a contact address has been supplied by the respondent.

You have a number of rights in relation to the information including the right of access to information we hold about you and the right of complaint if you are unhappy with the way your information is being processed. For further information on how we process your information and your rights please click the following link:
